MPS Campus Information

VISITORS: All site visitors are required to check in at the **Visitor Check-In**.

Safety is our priority and we ask you help maintain a safe environment by adhering to the following in addition to the site-specific safety guidelines:

- Wearing a bright colored shirt
- Wearing steel-toed shoes or boots that cover the ankle
- Wearing eye protection; prescription glasses will suffice

SHERMAN VISITOR CHECK-IN

2945 Fallon Drive
Sherman, TX 75090

PREASSEMBLY FACILITY

2945 Fallon Drive
Sherman, TX 75090

MANUFACTURING FACILITY

3007 Fallon Drive
Sherman, TX 75090

Driving Directions to Manufacturing Facility: Google Maps does not have the most accurate location of our Manufacturing Facility. We recommend using the 2945 Fallon Dr. address as reference. Once you turn onto Fallon Drive, you will continue down Fallon until it reaches a dead end. You will pass Eaton on your right and the District Parole Office on your left.

469.631.0686

ARIZONA OFFICE

4450 S. Rural Road Suite B130
Tempe, AZ 85282

Lead. Inspire. Build

MPS Site Specific Safety Training

MPS Philosophy: MPS has a primary goal of fostering and sustaining an Injury, Incident and Impact Free environment (I-3 Free). As an MPS employee working in our office and warehouses, we expect you and co-workers to adopt the same mentality. The following summarize elements involved with a successful I-3 Free Safety Culture:

- a. Teamwork is vital to our success
 - b. Safety Professionals are teachers, coaches and mentors, not safety cops
 - c. Safety doesn't execute the safety program, operations does. The Safety Team is to be used as a resource
 - d. Project Goal is always Zero (accidents, incidents, near misses, property damage)
- 1) All MPS employees are required to wear the following Personal Protective Equipment (PPE) while on site: High-visibility vests, safety glasses, and leather boots
 - 2) MPS employees are required to report all incidents to an MPS safety representative
 - 3) Fire extinguishers are located throughout the facility and marked with signage. All MPS employees should know where the closest extinguisher is and be familiar with the operation of the fire extinguisher
 - 4) Emergency Evacuation Procedures: In the event of a building evacuation, report to the designated muster point immediately. Do not gather tools or personal belongings. Do not leave the muster area. A safety representative will get a head count for a PAR (Personal Accountability Report). Do not return into the building until an "All Clear" is received from a safety representative.
 - 5) MPS is a no-knife company. All open blades or knives are prohibited at all MPS offices/warehouses.
 - 6) Employees must be trained on all equipment prior to operating. This includes, but is not limited to: forklifts, scissor lifts, aerial lifts, and the use of an overhead crane.
 - 7) When transportation of any equipment is happening, a spotter must be utilized. Please be aware of all surroundings and always have an exit plan/path in place.
 - 8) All MPS employees must respect barricades and what they stand for. No employee shall pass a yellow (caution) or red (danger) tape without first getting approval from a safety representative.
 - 9) Smoking/vaping is prohibited while inside any building. Smoking is only allowed in designated areas.
 - 10) All Covid-19 protocols are in place to help ensure a safe and healthy work environment. Listed are protocols that must be followed at all times while on site or in office. (Note: Covid-19 is an everchanging development. More protocols could be added as more is found out about the virus)
 - 11) If you are symptomatic, have been near or around anyone that is symptomatic, have a pending or positive test, or been around anyone that has a pending or positive test, please leave the site immediately and contact an MPS safety representative.
 - 12) Temperatures must be taken for the first time on site. This needs to happen each day on site. There are tripods with touchless thermometers at the doors of A and B PODS and one at the 60K terrace entrance.
 - 13) Covid-19 Self Reporting Survey must be completed and turned in to a foreman or safety representative daily.
 - 14) A face covering must be worn at all times while on site.
 - 15) Social distancing needs to try to be maintained. If social distancing cannot be maintained, a face covering with a face shield must be utilized.
 - 16) If two people need to occupy a scissor lift, a face covering with a face shield must be utilized.
 - 17) Anytime you see something unsafe, please contact an MPS safety representative.

18) By signing this document, you acknowledge you have read and will obey all the MPS rules listed above and will promote an injury, incident, and impact free environment
